

Business Link

Presenter factsheet

Opportunity to be a presenter at Business Briefings/Events

Background

Business Link puts on an extensive range of business events each year, our main programme is generally planned months in advance and many of the sessions are delivered with Business Link owned content. However, in order for Business Link to continue to provide delegates with the best event experience possible, we may from time to time have the requirement to seek new or specialist presenters.

When an opportunity arises we will notify the relevant suppliers via the Supplier Loop which will be sent out on a quarterly basis to all Suppliers registered on the Supplier Brokerage Service. We will include an invitation to register interest and details of presentation requirements.
